Jon,

I just sent you an email so you can get to the PFAS site information SharePoint site to enter information. Just submit what you can about the site, then I will respond.

Subject: Lane Plating - PFAS

Hi Linda,

The RI sampling for the Lane Plating site will be starting next week and will have PFAS sampling for groundwater, surface water, soil and sediment. Lane Plating as the name suggests is a former chromium plating facility in south Dallas. The samples will be analyzed using Method 537.

What step(s) do we need to do?
I tried to get into the SharePoint site to no avail.

Thanks, Jon

Jon Rauscher, Ph.D. Superfund Division U.S. EPA, Region 6 1445 Ross Avenue Dallas, TX 75202
